SKILLS

Leadership, Communication Skills,
Problem Solving Challenger in ICPC,
Collaboration, Continuous Learning,
Staying Current with evolving
technologies, and working in a team
environment

Summary Statement

- Dealing with many languages like :
Python : advanced with many fields like
Data analysis, data processing, data
visualization, machine learning,
Beginner with Deep Learning GAI, NLP,
GUI with python in Desktop application
and mobile app, computer vision, image
processing
And other like : c++, c#, java, HTML,
CSS, Java Script, SQL,
- Dealing with many FrameWorks and
tools like :
Advanced : PowerBI, Tableau, SQL,
WebScrapping and web crawling
Beginner with : knime,alteryx,
tensorflow

AWARDS

The First in his school in Primary,
Secondary levels until first class in high
school, the third in his department in
the third level high school math
department.

Leader of QwafI Hasbat (Charity
organization in faculty) more than 250
volunteers.

Freelancing

Started Working as a Freelancer in the Data Science field and Python developing since Jan 2023 at many platforms and with my network connection.

Linktree 📌

Head Organizer in Human For Good (University Student Activity).

Certification in english with passing the intermediate level from Harvard Academy assiut city | 2017

Certification from Assiut university, department of Infection control as Data Entry

LANGUAGES

Fluent English
